

## **Fenwick Athletics Leadership Academy**

Bishop Fenwick High School promotes servant leadership within our athletic programs by investing in the lives of our young men and women. This investment comes directly through training and education designed to cultivate student-athletes into dynamic leaders of faith and integrity. Due to the nature of athletics and the visibility of athletes we believe that these student-athletes possess a terrific opportunity to motivate, influence and lead their peers in a manner that cultivates a positive and healthy climate among teams and fellow students. Over time, our hope is that the program will not only create incredible servant leaders but ignite our student-athletes to be catalyst for creating a sustainable culture that will be a staple of Fenwick Athletics.

### **The Academy:**

The program will meet in the morning every other week with a total of 7 meetings. Each meeting will last about an hour. Meetings will be interactive in nature with follow up leadership activities that the participants will need to perform outside of the meeting. The servant leadership principles taught will be based on several popular leadership books as well as the leadership experience of those associated with the course.

### **What we need from the coaches:**

Coaches should recommend (2-4) athletes from their program to participate in the FALA.
