

FENWICK SOFTBALL 2018

Program Rules

BELIEVE...that the coaching staff has the best interest of the student-athlete at heart and will do whatever possible to promote, encourage, train and mentor the student-athlete.

BELIEVE...that YOU the student-athlete has the ability to succeed as a teammate and athlete in the Fenwick Softball program.

WORK HARD...in all that you do in connection to the Fenwick Softball program. The Fenwick Softball coaching staff expects all student-athletes to take pride yourselves and the program as the program is a reflection of the hard work and dedication that you put into it. This includes being there, being engaged and being an example. This begins in **THE CLASSROOM** and extends to practice and games.

PLAY HARD...and remember it is a game! The Fenwick Softball coaches expect that all student athletes give their best effort whenever you take the field and the Fenwick Softball coaches realize that the best effort is easier to give when you're having fun and excited to play. The Fenwick Softball coaches believe that this effort is the best way to leave your legacy.

GO HOME...and remember that softball is just a game! The Fenwick Softball coaches believe it is important to reflect on the games played and learn from what has happened, but it is also important to step away from the game so that you, the student-athlete, can move on to the next game. It is also important to focus on building bonds and relationships with your teammates and to treat them with respect as those bonds will last much longer than the game of softball.
